

Heritage Fire

6/10/2025 1900

The fire started around 0900 yesterday morning. It was likely caused by lightning. The fire started in the area of 921 Herber Schaefer Rd, Fredricksburg, TX. The fire burned unnoticed for a while. The initial attack resources were unsuccessful in controlling the fire.

The fire is currently approximately 3,300 acres and pushing mostly in a South-Westerly direction. However, winds have erratic causing flame runs in multiple directions.

Operations has developed a 215 for the incident to go along with an included map.

You have a large number of resources arriving throughout the night and in the early morning.

Your assignment is to build an IAP for an operational period start tomorrow morning. You may determine the Operational Period start time and length.

The IAP should include:

Cover

202

203

204s for each division

205

206

208
